

SL6

The SL6 series is suitable for industrial environments. The IP65 version is particularly adapted to harsh environments where dust and moisture resistance is vital. Typical applications include grinders, lathes, drilling machines and outdoor use. SL6 series spotlights have a flexible gooseneck style arm available in two lengths. It can be supplied with a 100-240V AC/DC adaptor.

The SL6 series is equipped with high-intensity LEDs having a color temperature of 4000K which is suitable for demanding tasks. LED technology delivers low energy consumption and long service life as well as high vibration durability and virtually no radiated heat in the light beam.

The lamp head is made from aluminium which allows good heat dissipation and protection against the tough environments it will be subjected to in industrial applications.

Customized versions are available upon request.

Features Include

- LED service life >30,000 hours
- IP20/IP65
- 20/27 in with swivel joint 12-24V (standard)
- 20/27 in without joint IP65 12-24V
- Plug-in AC/DC adaptor 100-240/12V, IP44 available as accessory

Applications

- Focused task light for industrial applications
- Tasklight for vehicles
- Marine applications

Benefits

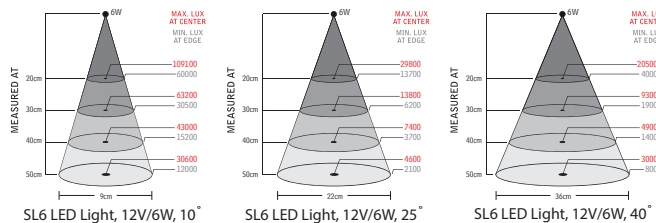

- High quality materials
- Efficient light pattern
- Rugged flexible arm
- Durable design
- High color rendering

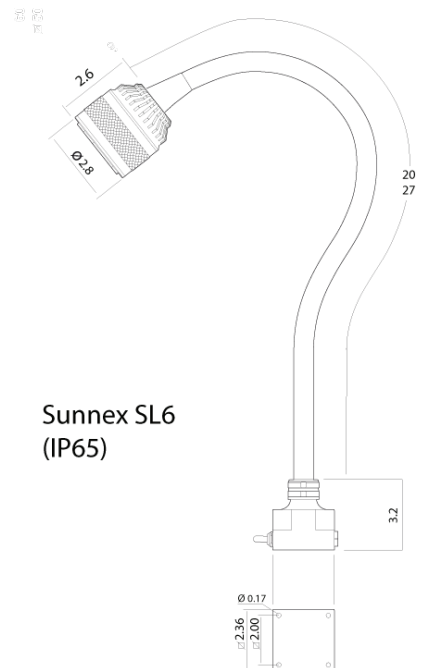

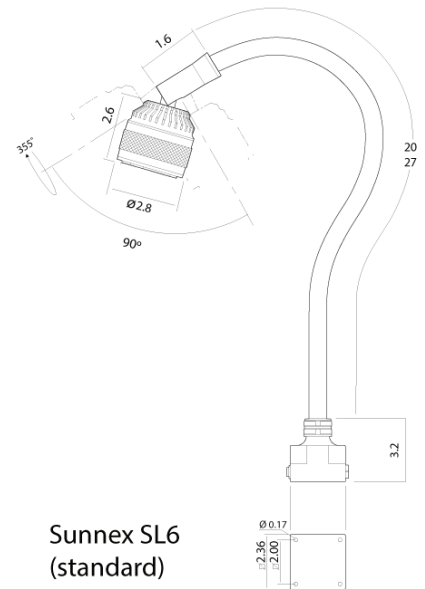

Technical Specifications
