

SL9

The SL9 is a high-intensity LED task light with light intensity comparable to that of a conventional 50W halogen light source. The energy consumption is significantly lower, saving approximately 85% compared to halogen.

Standard features include dimmer functionality and IP65 rating on low-voltage models, making the product suitable for a wide variety of applications. The Sunnex flexible gooseneck provides vibration-resistant positioning, and the LED light source emits virtually no heat.

Customized versions are available upon request.

Features Include

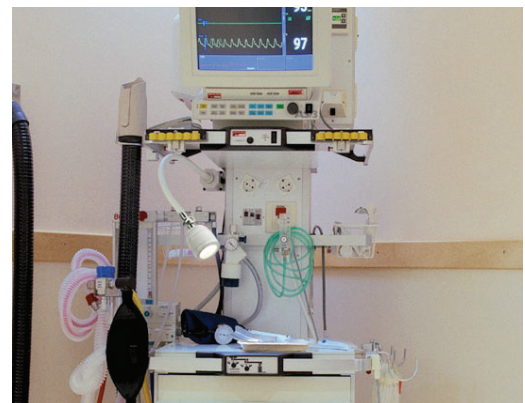

- Multifunction
- Up to 36000Lx light output at 20 inches
- Low energy consumption at 6W
- CRI of 85 making it suitable for color-critical applications
- IP65 rating on low voltage models
- Dimmer switch in the durable aluminum lamp head

Applications

This light is targeted at industry customers who need task lighting with a focused light intensity, as well as, those with a specific need for dimming in the high-intensity segment.

Benefits

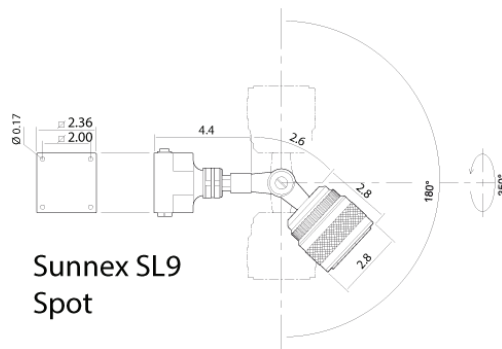

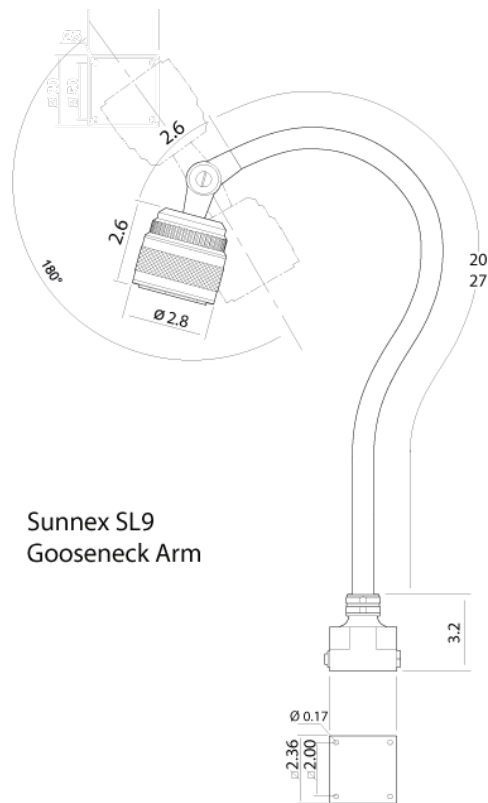

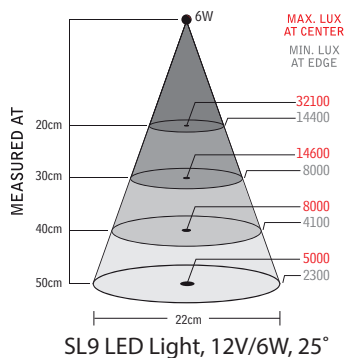

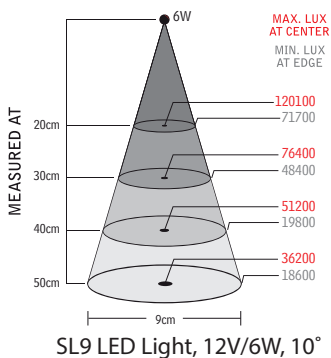

- Flexible gooseneck arm for easy positioning
- Rugged design
- High quality

Technical Specifications

Input	12-24V AC/DC; 50/60Hz (100-240VAC plugin AC/DC adaptor available, IP44)
Power consumption	6W
Arm length	20 inches or 27 inches
Color	Black
Color temperature	4300K
IP rating	IP65 (low voltage models)
Protection class	Class III
Beam angle	10° std, 25° optional
Light output	270lm, 36,000Lux at 50 cm, 10 degrees
Color rendering index	83
Lifespan	30,000 hours
Dimmer	Standard

Mounting Accessories

Magnetic base

Table base

C-Clamp

Wall mount
