

MOUNTS

Leveling Mounts:

Nylon

LN-Series

Sunnex leveling mounts are modular in design, consisting of two parts: a base and a threaded bolt. The mounts can be combined with any thread type and size, allowing you to specify the correct configuration for your application.

Sunnex LN-Series nylon leveling mounts support any type of machinery and equipment, from packaging machinery to office furniture. These mounts provide fast, easy, and precise leveling of all types of machinery and equipment, and are available with a variety of mounting options including bolt-on, free-standing, floor-anchored, and vibration damping pads.

Applications

- Electronics Equipment
- Medical Equipment
- Packaging Machinery
- Conveyors
- Industrial Scales

Advantages

- Fast, easy, and precise leveling of all types of machines and equipment
- Wide variety of configurations
- Self-aligning without sacrificing stability
- No cementing or bolting needed
- Electrically non-conductive
- Flexible, non-scuff or scratch-resistant
- Cost-effective options
- +/- 20° range of motion available

Nylon Leveler Base: No Anchoring Holes

Item No.		Load (lbs)	Base Dia. (A)	Base Ht. (B)
w/o Pads	w/ Pads			
S30TNY	S30TAY	650	1.18	0.71
S40TNY	S40TAY	900	1.57	0.71
S50TNY	S50TAY	1000	1.97	0.71
S60TNY	S60TAY	1300	2.36	0.71
S80TNY	S80TAY	1500	3.15	0.71
S100TNY	S100TAY	1700	3.94	0.71
S120TNY	S120TAY	1900	4.72	0.71

How to Select a Leveling Mount & Bolt

1. Select the base material (nylon or metal)
2. Select fixed or swivel configuration
3. Select diameter based on load requirements
4. Consider anti-skid and anchoring options
5. Match fixed or swivel bolt with base
6. Select bolt (material, thread and length)

MOUNTS

Leveling Mounts: Steel

LS/LP-Series

The Sunnex LS and LP-Series of leveling mounts offer the highest load capacity for leveling-only applications. In addition, the mounts have a reduced height profile for limited visibility.

The LS-Series stainless steel model offers corrosion resistance, a smooth surface, and a high quality appearance. The LP-Series cast zinc, powder coated model allows texture and color customization with corrosion resistance for the most demanding environments.

Applications

- Industrial Scales
- Small Scale Metal and Woodworking Machines
- Displays
- Conveyors
- Frame Systems
- Workstations
